

PRIVACY POLICY

“Break Assist” Application for iOS

6th August 2017

This privacy policy governs your use of the software application “Break Assist” (“Application”) for mobile devices that was created by Michael Anthony Coles. The Application is a reminder based app for LGV drivers in the UK, once set it will remind drivers when a Working Time Break is due and alert them they are coming to the end of the working time period. I also allows breaks of different durations to be selected with an alert once the time has elapsed.

What information does the Application obtain and how is it used?

User Provided Information

The Application obtains no personal information and the user is not required to register with any service in order to use all the features with in the app itself.

No personal information is stored within the app, only the time when the working period was started.

Automatically Collected Information

No information of any kind is automatically collected on the users of this app.

Does the Application collect precise real time location information of the device?

This Application does not collect precise information about the location of your mobile device.

Do third parties see and/or have access to information obtained by the Application?

No information is collected by the app therefor none can be passed to Third Parties.

- if Michael Anthony Coles is involved in a merger, acquisition, or sale of all or a portion of his assets, a prominent notice on our Web site of any change in ownership or uses of the Application “Break Assist”, as well as any choices you may have regarding this information.

What are my opt-out rights?

There are no opt-out rights as the app does not collect any user information.

Data Retention Policy, Managing Your Information

Since the app does not collect any user information, there will be none held on record to manage.

Children

This application is not designed for use by children, it is a tool for LGV drivers to adhere to the Working Time Regulations. No user information is held on the device or by us.

Security

Since the application “Break Assist” does not collect user data for any reason, the users security is not at risk.

Changes

This Privacy Policy may be updated from time to time for any reason. We will notify you of any changes to our Privacy Policy by posting the new Privacy Policy here and informing you via app updates. You are advised to consult this Privacy Policy regularly for any changes, as continued use is deemed approval of all changes.

Contact us

If you have any questions regarding privacy while using the Application, or have questions about our practices, please contact us via email at mikecoles@rstoc.co.uk.
